ISCA - WHERE FASHION AND TAPS COLLIDE

With our new collection we wanted to bring colour front and centre with a range of taps in colours that draw on global trends. They're easy to install and change up too, making it simpler than ever to bring a splash of colour (and of course #tapcouture) into your bathroom or kitchen all at a price that you can afford.

COLOURS INSPIRED BY GLOBAL TRENDS

We've chosen the colours for this first collection from our two themes for Spring/Summer19 - Urban Playground and Future Folk. These have been developed drawing on global and local trends, distilling big picture shifts into key direction for the season. You don't have to choose from one theme though, the tones have been considered as one integrated palette of fresh, trend right colours.

BE CONNECTED BY FUTURE FOLK

Inspired by different cultures and eclectic experiences from around the world, Future Folk is about looking for ways to curate those experiences in your own home.

Allowing you to create a sanctuary that celebrates simplicity in its most contemporary form, weaving handmade elements into your home and crafting a living space that you want to live in.

BE ENERGISED BY URBAN PLAYGROUND

This theme draws on the colours, textures and energy of cityscapes to bring a dose of creativity into our lives. It's about confident use of colour and an experimental take on design, inspiring our bold brights for this range.
