

Grohe Tempesta System 250 Shower System With Thermostat For Wall Mounting

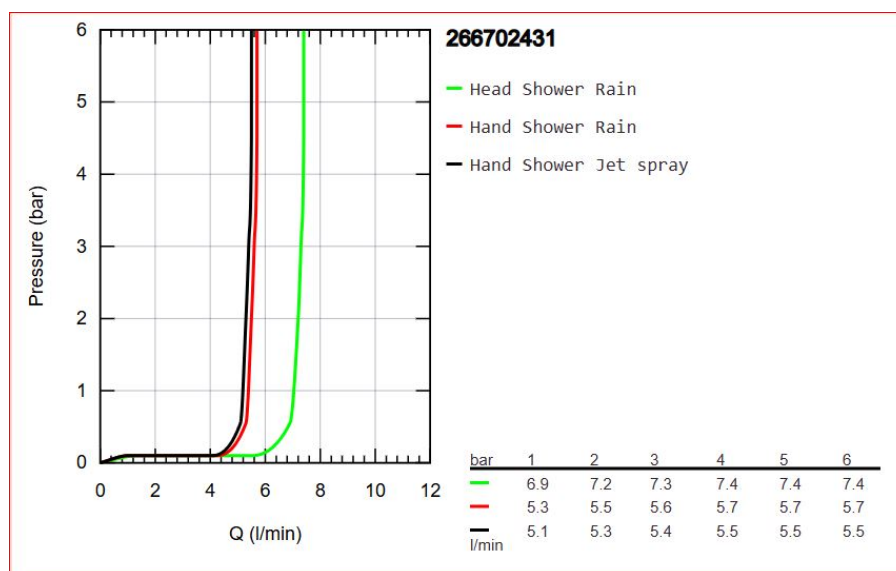

Range:	Tempesta System 250
Description:	<p>Give your bathroom an aesthetic makeover with the GROHE Tempesta 250 shower system in stunning matt black. It lets you enjoy all the benefits of convenience and comfort that a thermostat offers. The exposed system for wall-mounting consists of a 250mm diameter head shower, a 110mm diameter hand shower, thermostat, shower rail with 390mm swivel-action shower arm and gliding element to adjust the hand shower, plus a 1750mm hose with TwistStop function. The head shower offers a gentle, relaxing Rain Spray. The hand shower comes with a ShockProof silicone ring to protect it against drops or knocks. It has 2 spray patterns, the soft Rain and the powerful, targeted Jet Spray. Both are easy to access using the innovative GROHE SmartSwitch diverter on the back of the shower head. GROHE DreamSpray technology ensures an even flow from every SpeedClean anti-limescale nozzle, which can all be cleaned with a simple brush of your finger. The shower system delivers water at a constant temperature with no nasty surprises, thanks to GROHE's TurboStat technology. And the GROHE Water Saving technology significantly reduces water and energy consumption without compromising on performance. For scalding protection the GROHE SafeStop safety button is set at 38°C to prevent children in particular from unintentionally turning up the water temperature too high. And the optional GROHE SafeStop Plus limiter can be set to 43°C for an extra level of safety. Switch between head and hand shower and adjust the volume, all via one handle, with the Aquadimmer function. The durable and easy-care GROHE Long-Life finish keeps the system looking immaculate even after years of use. For an optional extra add the GROHE EasyReach tray (26362LN1) for a convenient place to store soap and shampoo close at hand. Sold separately.</p>
