

Grohe Tempesta System 250 Flex Shower System With Diverter For Wall Mounting

Range: Tempesta System 250

Description: This GROHE Tempesta 250 Flex shower system in stunning matt black is the easy way to more showering pleasure and a chic, comfortable bathroom. The exposed system for wall-mounting consists of 250mm diameter head shower, 110mm diameter hand shower, a diverter (to switch between hand shower, head shower or head shower eco setting), 620mm rail with 390mm arm and gliding element to adjust the hand shower, plus 1750mm TwistStop and 500mm hose. The head shower offers a gentle, relaxing Rain Spray. The hand shower comes with a ShockProof silicone ring to protect it against drops or knocks. It has 3 spray patterns, the soft Rain, the powerful, targeted Jet and the invigorating Massage Spray. Both are easy to access using the innovative GROHE SmartSwitch diverter on the back of the shower head. And the GROHE Water Saving flow limiter significantly reduces water consumption without compromising on performance. GROHE DreamSpray ensures that the flow from each and every nozzle will be just right, making your shower as comfortable and enjoyable as can be. The SpeedClean silicone nozzles are designed to brush free of limescale with a simple wipe. The durable and easy-care GROHE Long-Life finish keeps the shower system looking immaculate even after years of use. And the flexible installation and easy connection via the 500mm hose makes this system compatible with the mixer in your existing shower for a swift upgrade.
